PROFESSIONAL SUMMARY

Sixth-semester Software Development student and Full Stack Developer with hands-on experience building modern web applications and digital products. Experienced across frontend, backend, databases, APIs, and deployment environments, with a strong interest in developing complete and scalable software solutions.

Skilled in JavaScript, TypeScript, React, Next.js, Node.js, NestJS, and React Native, with experience working with PostgreSQL, MongoDB, Prisma, and Neon. Familiar with Docker, AWS, Vercel, and Railway for containerized development, cloud services, and deployment workflows.

Focused on Full Stack, Mobile, Cloud, and DevOps development, with an emphasis on maintainable code, performance, scalability, and user experience. Strong problem-solving, communication, adaptability, teamwork, and continuous learning skills.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer

Feb 2026 – May 2026

Bioconstructores Asociados SAS – Villavicencio, Meta

- Developed a modern web platform using **Next.js, React, TypeScript, Prisma, and Neon**, including an administration panel for managing dynamic website content.
- Implemented responsive and interactive interfaces using **React, Framer Motion, and GSAP**, focusing on usability, performance, and visual quality.
- Developed backend functionality and application logic using **TypeScript, Prisma, and Neon**, integrating frontend components with database-driven features.
- Integrated **AWS S3** for dynamic image storage and content management, enabling administrators to manage media directly through the platform.
- Used **Git and GitHub** throughout the development workflow for version control and collaboration.

Programming Logic Mentor

Sep 2025 – Nov 2025

Corporación Universitaria Minuto de Dios – Villavicencio, Meta

On-site

- Guided students in programming fundamentals, algorithmic logic, and computational problem-solving using **C++**.
- Helped students understand programming concepts and develop structured approaches to solving technical problems.
- Strengthened communication, mentoring, teamwork, and technical problem-solving skills in an academic environment.

EDUCATION

Software Development

6th Semester – 2026

Corporación Universitaria Minuto de Dios

CERTIFICATIONS & COURSES

- Cloud Computing Certified Specialist** – August 2026
- Explorer Programmer Level** – Ministry of ICT & CUN – 2025 – 164h
- Git and GitHub: Version Control in Web Projects** – Crehana – April 2025 – 4h 52min

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, C++, Kotlin

Frontend Development: React, Next.js, HTML, CSS, Astro

Backend Development: Node.js, NestJS, Express.js

Mobile Development: React Native, Flutter

Databases & ORM: PostgreSQL, MongoDB, Prisma, Neon

Cloud & DevOps: AWS, Docker, Vercel, Railway

Development Tools: Git, GitHub, Postman

LANGUAGES

Spanish: Native

English: Intermediate (B1/B2)

CORE STRENGTHS

Problem-solving, teamwork, communication, adaptability, continuous learning, technical research

INTERESTS

Full Stack Development, Mobile Applications, Cloud Computing, DevOps, Open Source, Emerging Technologies
