

Juan David Martinez Medina

JUNIOR DEVELOPER | JAVASCRIPT, REACT, NEXT.JS, FLUTTER, KOTLIN | 5TH SEMESTER SOFTWARE DEVELOPER

Calle 20 sur No 37 -34 | +57 3143209494 | Villavicencio, 500001 | juandamm099@gmail.com

PROFESSIONAL SUMMARY

I am a 5th-semester Software Development student with experience in Fullstack projects using Next.js, React.js, Kotlin, and Flutter. I am passionate about building functional web and mobile applications with good user experience. I am looking for an opportunity to grow as a Fullstack developer and contribute my skills to real projects.

PROFESSIONAL EXPERIENCE

Programming Logic Mentor | Corporación Universitaria Minuto de Dios – Villavicencio, Meta

Sep 2025 – Nov 2025 (On-site)

- Provided technical support to students in algorithmic logic and problem-solving using C++.
- Conducted practical tutoring on conditionals (if/else), loops, cycles, and management of arrays and dictionaries.
- Strengthened technical expertise in C++ and enhanced communication and academic leadership skills.

Fullstack Web Developer | Bioconstructores Asociados SAS – Villavicencio, Meta

Feb 2026 – Present

- Designed and developed the company website using Next.js, React.js, Prisma, Neon, Framer Motion, and GSAP.
- Implemented interactive animations and dynamic components to improve user experience.
- Developed skills in Fullstack development, project coordination, and adaptation to new technologies.
